

HEAT SLEEVES

HS 0715

REDUCE RADIANT EXHAUST TEMPS *only from GRAND ROCK!*

FEATURES:

- HIGH-QUALITY 2-Ply Construction to reduce radiant exhaust heat temps by approx. 50%
- Specially woven from Fiberglass & Basalt materials
- Helps protect wiring, hydraulic & fuel lines, & passenger compartment from extreme heat
- Helps prevent burns vs. contacting unprotected hot exhaust pipes!
- Material "breathes" so hot pipes can cool during downtime
- Lengths: 12", 18", 24" (special lengths by request)
- Material stretches to hug 3" thru 5" Diameters
- Slip-over pipes or flex sections, & even around curves
- OE's use this - now available from GRAND ROCK
- **MADE IN THE USA!**

Stainless zip-clamps are included
(not shown)
